

Fund Summary

Projects in the Parks and Recreation Capital Improvement Fund support the acquisition, development, and maintenance of parks, open space, and recreational facilities. Projects under **capital maintenance** are used for repairs and maintenance as needed to keep our assets in good working order, and those under **capital projects** are one-time expenditures that add new or greatly enhance City assets.

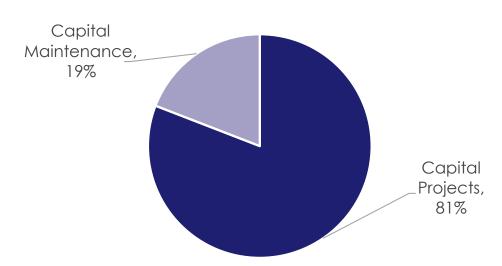

Revenues

Revenues in this fund are projected to come primarily from sales tax for 2021, although substantial grant awards are expected as well including over \$800k for work at the Ken Mitchell Open Space and over \$200k for the Speer Canal Trail. The City also expects an additional \$1.4M in grant reimbursements for work completed in 2020 as Adams County grants are typically paid out in the spring following the completion of the project.

Expenditures

Projects in this fund are largely on-track with most either moving through the procurement process or recently awarded contract for work. The exception is Brighton Park Pond Design and Rehab which is now expected to complete in 2022. Capital maintenance in this fund is expected to see the bulk of its spending in the fall as this is when much of the work for the Recreation Center is completed in conjunction with its annual shutdown, and reseeding occurs throughout parks.

|-------------------|---------------------------------------|----------|--------|---------------------|-------------|--|
| 322102 | High School Beautification Program | \$ - | | \$ _ | Started | This project is the yearly tree planting that City staff completes along with high school student volunteers. This year the event will occur at the end of April and replace several trees at Elmwood Cemetery that were lost in the 2020 windstorm. |
| 322103 | Fleet Replacement & Acquisition | \$ - | | \$ 239,900 | Started | For planned replacements of fleet vehicles. Several vehicles have been ordered and are awaiting arrival. Due to COVID related supply chain issues, many vehicle manufacturers are expecting delays in shipment of vehicles. Due to this, it is possible that some vehicles will not be delivered until 2022, meaning they cannot be charged until 2022. The Budget & Performance Team is working closely with the Fleet Operations Supervisor to monitor these delays and address them in the 2022 Budget. |
| 322104 | Racquetball Court Conversion | \$ - | | \$ 30,000 | Not Started | This is for design to convert one of the existing racquetball courts into additional workout space. |
| | | \$ 12 | 27,681 | \$ 5,267,870 | = | |
